

## **Year 7 Catch-Up Premium Action Plan 2015-16**

This academic year, there are significantly more students who have not achieved a level 4, predominantly in 'mathematics' or 'mathematics and English' at Key Stage 2.

Therefore to build on the successes from 2014-2015, we intend to continue to develop our support and intervention programmes, particularly in Numeracy.

We will use catch-up funding for:

- Additional small group Maths tuition with Maths teacher
- 1:1 Maths intervention with Numicon
- Purchase Lexia for small group literacy intervention
- CPD for Support Staff in Mathematics
- 1:1 Literacy Intervention (Active Learning Kit/Blue Reading Box/Spelling Made Easy/Everyone Can Read)
- Teaching Assistant Support in English and Maths lessons
- Teaching assistants to listen to students read during Accelerated Reader sessions.

The impact of these interventions will be tracked through progress reports and challenge meetings.
