Component 3:

- People and the biosphere
- Forests Under Threat
- Consuming Energy Resources (Currently covering in class)
- Making Geographical Decisions.

“Students are being actively encouraged to engage in their own independent revision outside of the classroom. It is recommended that student make use of the CGP revision guides provided to them by the school, which make for an excellent revision resource. Each chapter of the revision guide is accompanied by a summary check list at the close of the chapter that provides students with an overview of the key concepts they must grasp from each topic.

It is also imperative that students are completing exam style question regularly, both in and outside of lesson time. The CPG revision guide has an accompanying question booklet that contains hundreds of practice questions. An answer booklet is available, but at present is only available online through outlets like Amazon. Students can also make use of past papers available on the Edexcel B website:

<https://qualifications.pearson.com/en/qualifications/edexcel-gcses/geography-b-2016.coursematerials.html#filterQuery=category:Pearson-UK:Category%2FExam-materials>

We also offer revision sessions on a Friday between 3-4 in H5F. Any student is welcome to come along to these, which will provide additional revision opportunities, on top of the independent revision students should be conducting.”
